

# LED SPOT LIGHT

## LED LAMP HIGH POWER

- Efficient and ecologic.
- On this lamp, we propose a switch without contact.
- The ergonomic handle enables a precise and intuitive positioning.
- Mounting on Powder coated steel trolley.
- Easy cleaning and disinfection, thanks to the smooth surfaces and material's quality.
- Illuminated eld from 30 cm : diameter 20 cm.
- White light similar to the sun : 5500 ° K.
- Excellent color rendering.
- No UV or infrared output.
- Exceptional longevity : up to 50000 hours.
- The printed circuit where are implanted the LED is cooled by an aluminum heatsink and not by a fan which causes noise pollution, and attracts dusts.
- Available with a 700 mm long arm
- A 3 meters long cable allowing a great mobility.
- Class II double isolation.]
- Dual intensity model 50/100% controlled by a head lamp switch.

## NO CONTACT SWITCH (ISC)

Unlike ordinary switches, the ergonomic and hygienic NO CONTACT SWITCH avoids hands contact.

Hygienic conditions required in the medical field can thus be respected. In addition to the comfort of use, this no contact switch helps to reduce the risk of infection by cross contamination.

Just place your hand or any object in front of the lamp base sensor to control the lighting. The risk of accidental triggering is prevented thanks to the maximum distance adjustment of detection witch is only 3 cm.

Now all the LED examination lamps are available with the no
